IN RE: Dermatological Compositions using a series of unusually safe esters as cosmetic emollients with unique and ideal physical properties as a C.I.P. of application number 07/806,927 filed December 11, 1991.

FILED: November 14, 1993

EXAMINER: JOSE G. DEES

Dear Mr. Dees:

Following is a response to your office action dated April 6, 1994.

Please delete page 12 of the specifications. The Neodol 25 is adequately identified by the specs in "new" page 13.

Please replace page 13 with "new" page 13 as enclosed which eliminates top 9 lines and last 4 lines of page 13 as requested.

/ Please replace page 20 with "new" page 20 as enclosed which eliminates line 2 as requested.

/ Enclosed find "new" pages 26 & 27 which adds lines 1 & 2 of original page 26 as an amendment to page 27. This compiles with examiners request.

The foregoing changes satisfy paragraph 2 of page 2 of the office action.
